Press Release

Putnam County church scheduled to break ground on major addition

Community outreach creates growth and need for expansion at Teays Valley Baptist Church

Hurricane, WV, June 11, 2017: Under the leadership of Dr. John D. Smith, Teays Valley Baptist Church has grown from 89 people to a record attendance of 1,400.

Due to rapid growth in attendance, the church is scheduled to break ground June 18th on a 19,000-square foot addition. This is in addition to the existing 42,000-square foot of buildings in place.

Dr. Smith noted, "It has been my honor with our church to serve Putnam County for the past 39 years. God has expanded our ministry over the years to where we are now reaching the whole state and have a national and worldwide impact. We are looking forward to this project, which will enable us to reach more people and to further serve our community."

Delegate Nancy Foster (R), Putnam County, commented, "Teays Valley Baptist Church has a heart for the community in Putnam County. The work being done to reach those in need is genuine and appreciated to help our community."

Putnam County Commissioner, Ron Foster (R), also commented, "Teays Valley Baptist Church is a staple in our community. The investment in this structure will reap benefits for years to come. Their Frontline ministry to aid those struggling with addiction is a testament to their concern for our community."

The community is invited to the Father's Day worship service on June 18, 2017, at 10:30 a.m. and the groundbreaking ceremony to follow immediately after the service.

The project is scheduled to begin in July with a targeted completion date of June 2018. To learn more visit: <https://www.teaysvalleybaptist.com/build/>
